

Crank it up!

CVHD
home theater 5.1 surround

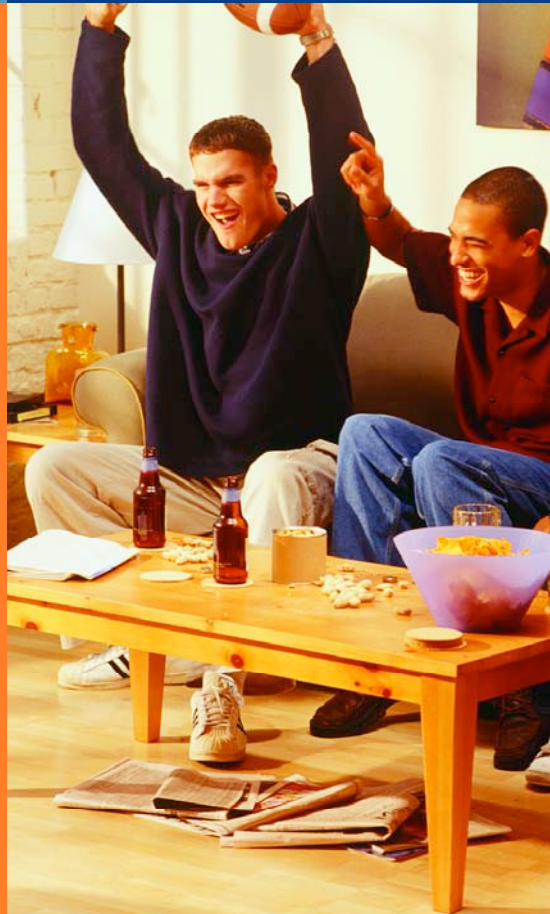

THEATER LIKE SURROUND SOUND

The CVHD Series for high definition audio for home theater is true to the earth-shaking legacy of Cerwin-Vega! It plays loud, delivers great bass, and brings home theater to an entirely new level. Finally you'll hear what you've been missing — from the delicate overtones of a stringed instrument to increased vocal intelligibility of movie dialog. And when the action begins, you'll feel it like never before. The CVHD Series is just what you've always wanted from the company that defined bass!

CRANK IT UP!

These loudspeakers can play loud... and deliver seismic bass

- Satellites incorporate a 1-inch [2.54 cm] soft dome tweeter and six 3-inch [7.62 cm] composite cone woofers for rich accurate sound
- Neodymium magnets in woofers and tweeters deliver exceptional reproduction of music and movie sound
- Highly damped polymer enclosure with proprietary high frequency waveguide for improved acoustics and increased vocal intelligibility
- Satellites employ treated silver-mylar tweeters for improved definition and acoustic clarity
- Thermal overload protection for playback at increased volume
- Elegant, high-tech design blends well with flat screen displays

home theater 5.1 surround with a punch

CERWIN-VEGA!

FEEL THE BASS

Low end response will Shake the room!

- High excursion powered sub-woofer for bass response you can feel
- 250 watts of continuous power dedicated to subwoofer, reserving receiver/external amplifier power exclusively for satellites
- Tuned bass-reflex enclosure for maximized output
- Low diffraction baffle design for reduced distortion
- LFE (low frequency effects) input ensures all low frequency information from DVDs is reproduced
- Continuously variable crossover optimizes low frequency performance for increased clarity

CVHD HOME THEATER SYSTEM

Benefits:

- Linear Dispersion Speaker Technology™ (LDST) will fill the entire listening environment with rich, high definition audio
- 12-inch [30.48 cm], 250 watt powered subwoofer for room shaking bass performance
- High power handling capability enabling the system to efficiently play really loud!
- Elegant design for any environment - floor stands, as well as wall and ceiling mounting, Omni-mounts also available
- Satellites are magnetically shielded for safe use near any TV

CVHD Center Channel Speaker

- Magnetically shielded design enables speaker to be placed close to video monitor without distorting picture
- Features a 1-inch [2.54 cm] soft dome tweeter and six 3-inch [7.62 cm] composite cone woofers for rich, articulate sound reproduction
- Low diffraction baffle cabinet design for increased clarity and intelligibility of dialog
- Neodymium magnets in woofers and tweeters provide crystal clear highs and natural sound quality
- Thermal overload protection for playback at increased volume

SPECIFICATION

CVHD Satellites with Linear Dispersion Speaker Technology™ (LDST)

Frequency Response: System 28 Hz to 22 Khz
Satellite 150 Hz to 22 Khz
Power: 50 to 125 watts continuous
Impedance: 8 Ohm nominal
Sensitivity: 95 db
Filters: 150 Hz high pass filter
Drivers: One 1" [2.54cm] high definition soft dome tweeter and six 3" [7.62 cm] cellulose composite cone woofers
Video Shielding: Yes
Floor Stands: Yes (optional) vertical stands sold in pairs provides 3 adjustable height positions, with wire management
Dimension: (HxWxD) 22.5 x" 5" x 5"
57.15 x 12.7 x 12.7 cm
6.32 lbs [2.84 Kgs]
Wall Bracket: Yes Included - Optional Omni-mount brackets for wall and ceiling mounting

Subwoofer: 12" [30.48 cm] powered

Frequency Response: 28 Hz to 150 Khz
Amplifier: 250 Watts (110V and 230V versions available)
Speaker: 12" [30.48 cm] woofer
Cabinet: Bass reflex
Dimension: (HxWxD) 17.75" x 16.75" x 16.5"
45.09 x 42.55 x 41.91 cm
Weight (unpacked): 48.5 Lbs, [22.05 Kgs]
Other features: AC and thermal protection
Speaker level and line level inputs
Auto-on sensing
